

Nilfisk Road Sweepers

Nilfisk RS 502

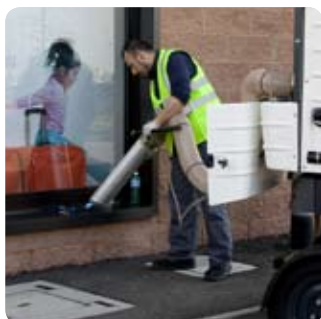

Getting around - getting it clean

Adjustable brush speed means that the machine can deal with all road surfaces and dust conditions (optional)

Stainless steel hopper and 246 litre polyethylene tank provide durability and longlife reliability

With its amazing turning radius and compact design, the RS 502 is the right choice for productive cleaning of footpaths, pavements, car parks and loading bays where space is limited.

Plus, it also has all new features such as a stainless steel hopper and a large, 246 litre polyethylene tank that ensures long life and reliability. Speed adjustable brushes are available for easy operation on all surfaces and in all conditions with outstanding efficiency, and the new powerful 40.8 h.p. engine makes this the most powerful sweeper in its class.

- Compact and light enough to transport from job to job
- High suction & strong airflow for pick-up of bottles, cans, stones & other heavy debris
- Hydraulically operated flap for safe intake of large objects
- Low maintenance costs, and a service programme guide that meets all application needs
- Hydrostatic transmission gives operating speed up to 20 km/h
- Flexible design allows the machine to operate over pavement kerbs up to 15 cm high
- Diagnostic box enables monitoring of the maintenance program of the machine and operators misuse

Technical specifications

Description	Unit	RS 502
Motor power source		Diesel 30.6kW (40.8 hp) 4 cyl
Productivity rate theoretical/actual	m/h	19.200/13.500
Working width w/2 side brushes	mm	1.600
Min. turn-around aisle width	cm	460
Max speed	km/h	20
Max climbing rate	%	22
Water tank capacity	l	246
Hopper volume	l	500
Max. dumping height	cm	146
Length x width x height	cm	311 x 123 x 199
Weight	kg	1700
Operating weight	kg	2230
