## MP70

Single Direction Vibratory Plates

This plate proves that performance is valuable

With a powerful Wacker Neuson petrol engine, low weight, compact dimensions and low-maintenance design, the MP70 Vibratory Plate is ideal for the compaction of sand, crushed rock, granular materials and segmental brick paving.

- Compact design with centrally mounted, fully enclosed exciter for an even spread of compaction force over the whole base plate.
- Sturdy 4-stroke petrol engine with recoil starter is isolated from vibration by rubber dampers.
- Vibration isolated reversible handle with throttle control for ease of operation and reduced operator fatigue.
- Conveniently placed lifting handles, and a central lifting point for safe and easy handling.
- Low maintenance design.

**MP70 Standard Package includes operator's manual and parts book.**

## Technical specifications

### Operating data

|                                           |                       |
|-------------------------------------------|-----------------------|
| Operating weight (without fuel)           | 76 kg                 |
| Centrifugal force                         | 15 kN                 |
| Base plate size (w × l)                   | 460 x 610 mm          |
| Advance travel max. (depending on soil)   | 30 m/min              |
| Surface capacity max. (depending on soil) | 830 m <sup>2</sup> /h |

### Engine / Motor

|                             |                                                      |
|-----------------------------|------------------------------------------------------|
| Engine / Motor type         | Air-cooled, single cylinder, 4-cycle gasoline engine |
| Engine / Motor manufacturer | Wacker Neuson                                        |
| Engine / Motor              | WN6                                                  |
| Displacement                | 179 cm <sup>3</sup>                                  |
| Engine performance (max.)   | 4.2 kW                                               |
| at rpm                      | 3,600 rpm                                            |
| Fuel consumption            | 1.27 l/h                                             |
| Tank capacity               | 3.6 l                                                |

#### Please note

that product availability can vary from country to country. It is possible that information / products may not be available in your country. More detailed information on engine power can be found in the operator's manual; the stated power may vary due to specific operating conditions.

Subject to alterations and errors excepted. Applicable also to illustrations.
