

## design details

Stratquip's skid mounted, diesel driven, high head pumpsets, complete with vacuum assisted priming, are ideal for your pit dewatering or long distance water transfer projects.

### Safety Inclusions:

- Emergency stop
- 9 Kg Fire Extinguisher
- Battery isolator
- Starter isolator
- Turbo Heat Shields
- Pressure Relief Radiator Cap
- Operational Flashing Light.

### Details:

|                    |   |
|--------------------|---|
| suction            | 300mm Flange – Suction Boom and Jib               |
| suction hose       | 300mm Flange Ribbed Contractor Hose with Strainer |
| discharge          | 300mm Flange                                      |
| solids handling    | 28mm  |
| max capacity       | 400 L/sec   |
| max head           | 200 Meters  |
| priming system     | Vacuum  |
| fuel capacity      | 3000 Litres                                       |
| fuel fill system   | Wiggins Fast Fill System                          |
| nominal dimensions | 7200L x 2250W x 3300H                             |
| tare weight        | 14500 kg  |
| gross weight       | 16500 kg  |
| engine             | Caterpillar Model: C27 Acert                      |
