

I12 TRACKED IMPACT CRUSHER

ANACONDA®

A McLanahan Company

Specialists in Engineering Solutions for the Recycling and Material Handling Sectors

The Anaconda Range of Mobile Tracked **Impact** Crushers are designed specifically to suit applications where the toughest demands of primary crushing are of imperative importance with their immense power, reliability and productivity.

The **I12** Impact Crusher is an aggressive and powerful mobile Impact Crusher, Boasting the proven ability of the Universal Crushers Impact Chamber 1090mm x 1040mm (43" x 45") within an innovative Anaconda Tracked Solution.

The **I12** utilizes an extremely fuel efficient and powerful **Hydraulic System** which allows the machine to provide excellent levels of productivity in applications such as Recycling, Contracting and Quarrying. The physical size, quick set up time, user friendly controls and ease of transport make the **I12** the perfect crushing solution. Additionally, with a capacity of up to 250TPH the **I12** is sure to make light work of the toughest scenarios.

Specialists in Engineering Solutions for the Recycling and Material Handling Sectors

SPECIFICATIONS AND TECHNICAL DETAILS

Features

- Universal Crushers Impact Chamber (1040mm x 1090mm)
- Direct hydraulic drive Rotating case (535cc Motor)
- Impact speed range (500-650 RPM)
- Hydraulically folding Hopper Wing-plates
- Hopper Max Capacity 6.5m³
- Variable Speed on discharge conveyors
- Overband Magnet (Dual side discharge)
- Step deck vibrating grizzly feeder

Engine Options

- Cummins IPU – L9 380 – Tier 2 – (283KW)

Options

- Blank hardox/domex mesh to by-pass fines conveyor
- Recirculation system
- Alternative Hammer Materials depending on application
- Vibrating Pan Feeder

Weight

- 40,000 KG (TBC)

WORKING AND TRANSPORTATION DIMENSIONS

Anaconda sell and distribute our entire product portfolio via a Dealer Network,

For your nearest dealer please contact us or visit our website.

Anaconda reserves the right to make changes to design without reservation and without notification.

Tonnage estimations are dependent on fractions, material type, size and application.
