Australian Made For Australian Conditions

AIR VACUUM
SEPARATION

REMOVE FINES

With the RecycleQuip Air Vaccum System you can remove fines such as paper, plastic, leaves, twine & other light materials to ssist with your contaminated material.
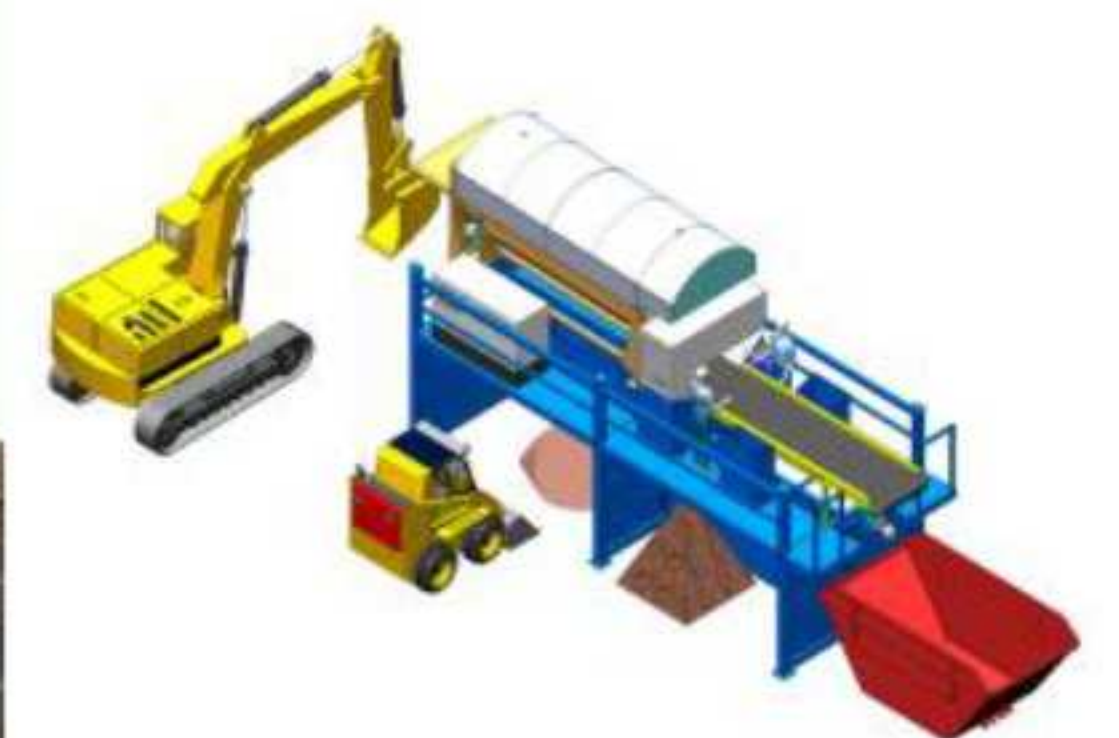

Available in electric and hydraulic models we have an Air Vacuum system to suit your needs

RECYCLING

If you currenlty utalise pickers on a recycling line you will enjoy the use of the AVS-3000 Air Vacuum System

Lights can be removed via the vacuum tube and sent to a designated storage area ensure a much cleaner product.

AIR VACUUM SEPARATION

AIR SEPARATION AV-300H HYDRAULIC

|	
Inlet volume: 730 L/s	Temperature: 20C
Static pressure: 4790 pa	Driver: Hydraulic Motor 12 cc/64Kw
Speed: 2950 R.P.M	Control: Hydraulic Valve 207 bar
Power: 6.4 Kw	Options: colours / special finishes

AIR SEPARATION AV-300E ELECTRIC

|	
Inlet volume: 730 L/s	Temperature: 20C
Static pressure: 4790 pa	Driver: electric motor 15kw 3000 R.P.M
Speed: 2950 R.P.M	Control: variable frequency drives
Power: 6.4 Kw	Options: colours / special finishes

AIR SEPARATION AV-300D DIESEL

|	
Inlet volume: 730 L/s	Temperature: 20C
Static pressure: 4790 pa	Driver: diesel engine 13.5 kw 3000 R.P.M
Speed: 2950 R.P.M	Approximate fuel consumption: 3.9 L/h
Power: 6.4 Kw	Control: Hydraulic Valve 207 bar

ALL MODELS ARE SUPPLIED WITH:
## AIR SEPARATION AV-300 HEAD

Dimensions: Open 1350mm x 300mm - Closed 890mm x 300mm

Suction area: Open 0.405 m2 - Closed 0.267 m2

Suitable for conveyors with dimensions: 1000mm to 1470mm
