

## Product Sheet: ERM 5 Ton Wheel Loader

### Attachments: 4-in-1 Bucket & Pallet Forks

#### Overview

The ERM 5 Ton Wheel Loader is a powerful and versatile machine suited for material handling, site preparation, and general-purpose loading operations. With a heavy-duty 4-in-1 bucket and robust pallet forks included, this unit is ready to take on diverse site requirements across construction, mining, and civil works. Built for strength, visibility, and ease of operation, it's an ideal addition to your fleet for short- or long-term hire.

| Feature                   | Description                 |
|---------------------------|-----------------------------|
| Operating Weight          | Approx. 16,600 kg           |
| Rated Load Capacity       | 5,000 kg                    |
| Engine Power              | 162 kW @ 2000 rpm           |
| Transmission              | Powershift                  |
| Bucket Capacity           | 3.0 m <sup>3</sup> (4-in-1) |
| Breakout Force            | 170 kN                      |
| Dump Clearance @ Max Lift | 3,050 mm                    |
| Max Reach @ Full Height   | 1,230 mm                    |
| Tyre Size                 | 23.5-25                     |
| Dimensions (L×W×H)        | 8,300 × 3,024 × 3,426 mm    |

#### Attachments

##### 4-in-1 Bucket (3.0 m<sup>3</sup>)

- Multi-functional for loading, grading, clamping, and backfilling
- Hydraulic operation for efficient control

- Reinforced edges for durability in tough applications

#### **Pallet Forks**

- Rated capacity: 5,000 kg
- Adjustable fork spacing for various load sizes
- Suitable for transporting palletised or heavy irregular loads

#### **Applications**

- Earthworks and civil construction
- Mining and quarry operations
- Yard work and logistics
- Bulk material handling
- Agricultural and industrial sites

#### **Key Features**

- Enclosed air-conditioned cab with ROPS/FOPS protection
- High-visibility operator layout
- Easy access for service and maintenance
- Built to Australian safety and quality standards
- Supplied with operator manual and risk assessment

#### **Rental Information**

- This machine is available for dry hire through ERM Group. Flexible rental terms are available to suit your project duration and budget. Transport can be arranged upon request.
